MEMORANDUM FOR: Deputy Director for Administration
Deputy Director for Operations
Deputy Director for Intelligence
Deputy Director for Science and Technology
General Counsel
Inspector General
Comptroller

25X1

SUBJECT: Addendum to CIA Strategic Plan, 1982-1992 [redacted]

1. This memorandum transmits the 1984 Addendum to the Strategic Plan which, like the original Plan, distills our thoughts about crucial long-term goals and programs. The Addendum and the Plan should focus our thinking about priorities for the FY 1986-90 program budget, as we seek to develop the capabilities we will need beyond that period. [redacted] 25X1

2. A number of themes not specifically addressed in the Addendum require close and continuing attention -- our treaty monitoring capabilities and the security of sources and methods, for example, and the need to maintain our position on the leading edge of technology in areas that are unique and critical to us. We have chosen, however, to concentrate in the Addendum on a limited number of concerns which must receive attention now if we are to achieve the goals outlined in the Strategic Plan. The most important of these concerns center on our future manpower and information handling needs. [redacted] 25X1

3. The Addendum assigns responsibility for several remedial actions to be completed by year's end. I have asked the Planning Staff to keep me abreast of progress on the action items, particularly those that will involve review by the Executive Committee upon completion. [redacted] 25X1

4. I want to express my appreciation for the contributions to the strategic planning process you and your staffs have made through the Interdirectorate Planning Group (IPG). Representing your collective views, the IPG has proven to be a useful mechanism to help develop our long-range strategy. I will look to the IPG this year to assist the Planning Staff in monitoring progress on the implementation of the actions called for in the Addendum. [redacted] 25X1
